National Flood Insurance Program

Your Homeowners Insurance Does Not Cover Floods...

FEMA

...but Federal flood insurance does.

Floods can happen anytime, anywhere.
They cause physical, emotional, and financial anguish—especially when victims realize the damage is not covered by their homeowners insurance policy.

Federal disaster assistance is not the answer.
Why? In most cases, the only aid disaster victims may qualify for is a loan, and that must be repaid—with interest!

Only Federal flood insurance reimburses you for flood damage to your property.
With one annual premium, you can protect your most important investment: your home or business and its contents.

Call your insurance agent or company today to ask about the National Flood Insurance Program. There is no better way to save for a rainy day.

For more information about the NFIP and flood insurance, call
